

Nischhal Raj Subba

Senior UI/Product Designer | Consumer Mobile Apps + Design Systems
hinischalsubba@gmail.com | +9779842552348 | Lalitpur (Kathmandu Valley), Nepal
<https://nischhalsubba.com.np>

SUMMARY

Senior UI/Product Designer with 6+ years of experience designing consumer mobile apps, product-led experiences, and scalable design systems. Strong in original visual direction, high-fidelity mobile UI, component systems, interactive prototypes, and developer-ready handoffs. Comfortable working directly with founders and product teams to turn early-stage ideas into polished, usable, and emotionally clear digital products.

SKILLS

Product Design (UI/UX): flows, IA, interaction design, high-fidelity UI
Design Systems: components, patterns, scalable consistency
Enterprise & Dashboard UX: data-heavy screens, workflows, internal tools
Prototyping: interactive, state-complete prototypes for validation
Developer Handoff & Design QA: specs, build reviews, UI consistency
Cross-functional Collaboration: PM/engineering alignment, reviews, iteration

EDUCATION

University of Wolverhampton - BA (Hons) Business Management, 2014-2018
Completed a BA (Hons) Business Management with a focus on business fundamentals that support product thinking: research, planning, communication, and execution.

AWARDS

Ranked #1 Designer - Uxcel Global Rankings 2024, Dec 2024
#1 Product Designer - Uxcel Global Rankings 2024, Dec 2024
Top 10 Product Designer - Uxcel Global Rankings 2023, Dec 2023

PROJECTS

MAS DataHub - Enterprise Data Integration Platform, Oct 2025 to Dec 2025

- Designed workflow-heavy UX for enterprise data integration and automation.
- Established layout patterns for complex screens: navigation, tables, panels, and system states.
- Delivered high-fidelity prototypes and UI specifications to support consistent implementation.

Zapp Today - Delivery + Scheduling Mobile App, Jun 2020 to Jan 2021

- Owned the mobile app UX/UI end-to-end for iOS and Android.
- Defined core user flow with client alignment, translating it into wireframes and final UI.
- Conducted competitive benchmarking and remote research via Google Forms.
- Took the product from wireframes to final UI through launch.

UX Designer - Uxcel, Dec 2 2024

UX Writer - Uxcel, Jan 21 2025

UX Researcher - Uxcel, Dec 10 2024

EXPERIENCE

Idealaya - Product Designer, Remote/Kathmandu, Aug 2025 to Dec 2025

- Led UI/UX for enterprise web software, prioritizing clarity, consistency, and scalable patterns.
- Delivered high-fidelity prototypes and implementation-ready UI specifications for web experiences.
- Built and maintained a design system to standardize components and improve cross-screen consistency.

<https://www.idealaya.com/>

Mokshya Protocol - Product Designer, Remote/Lalitpur, Mar 2024 to Jul 2025

- Designed Web3 UI for a decentralized product, balancing usability with Web3-native interactions.
- Built interactive prototypes for key workflows and validation-focused flows to reduce ambiguity.
- Iterated based on feedback to improve usability and support retention-focused improvements.

<http://mokshya.io/>

Tegzy - Lead User Experience Designer, Remote/Australia, Feb 2023 to Nov 2023

- Built and scaled a design system to improve dev/design handoff quality and designer onboarding.
- Standardized reusable components and UX patterns to increase consistency across screens.

<http://tegzy.com.au/>

ESR Tech - Senior UI/UX Designer, Remote/Kathmandu, Oct 2021 to Feb 2023

- Designed dashboard UX for an internal tool with a focus on usability and information clarity.
- Contributed to product work, including Jeweltrek and the ESR Tech website.

<https://esrtech.io/>

ThemeGrill - Senior UI/UX Designer, Remote/Kathmandu, Apr 2021 to Sep 2021

- Developed reusable UI components to improve consistency and design efficiency.
- Designed interactive prototypes to test and refine concepts before implementation.

EXPERIENCE CONTINUED

Gurzu - UI/UX Designer, Onsite/Lalitpur, Jul 2019 to Jan 2021

- Worked with clients to align UX/UI work with business objectives and priorities.
- Designed and prototyped new product ideas to accelerate early testing and validation.
- Improved existing interfaces to enhance usability and efficiency.

<https://gurzu.com/>

Diagonal Softwares - User Experience Designer, Part-time/Germany, Apr 2019 to Sep 2020

- Designed interfaces aligned with brand identity and market needs.
- Collaborated cross-functionally to deliver cohesive end-to-end experiences.
